PSC APPROVES MISSOURI-AMERICAN APPLICATION WITH CITY OF KIRKWOOD

JEFFERSON CITY---The Missouri Public Service Commission has approved -- with conditions -- an application by Missouri-American Water Company with the City of Kirkwood.

The agreement would allow Missouri-American to build transmission mains and points of delivery necessary to sell and deliver water to the City of Kirkwood and approves the related tariff sheets, effective July 25, 2005.

In exchange, Missouri-American agreed to maintain financial records regarding the costs to build the project and annual net revenue benefits it receives from the project. The Commission maintained authority to address the project's impact in a future rate case.

Background: On February 24, 2005, Missouri-American Water Company applied for authority to build transmission mains and points of delivery to sell and deliver water to the City of Kirkwood. According to the application, Kirkwood asked Missouri-American to provide water service so that Kirkwood can resell the water to its citizens.
